The ratios have been prepared in accordance with the recommendations and guidelines issued by the Danish Society of Financial Analysts.

For definitions, see under accounting policies.

HIGHLIGHTS OF 2016

REVENUE GROWTH OF 0,2%

Growth in revenue in 2016 of 0,2% when adjusting for the impact of closed stores and the development in FX rates from 2015 to 2016. Reported revenue grew -4,8%.

Asia Pacific -3,1% (-4,3% reported)
 Europe & other markets +2,5% (-3,1% reported)
 North America +9,3% (-18,5% reported)

GROWTH IN 2017

Management expects for 2017 growth in revenue excluding closed stores ahead of market and significant growth in operating profit ahead of sales growth.

OPERATING PROFIT EXCLUDING SPECIAL ITEMS IMPROVES SIGNIFICANTLY OVER 2015

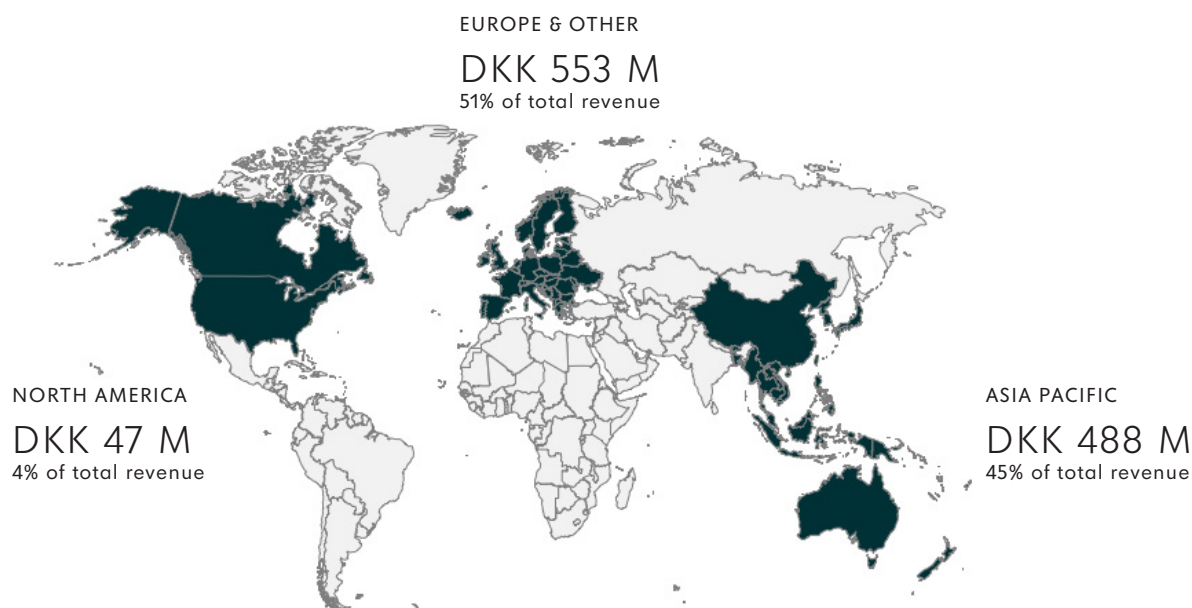

2016 EBITDA excluding special items at DKK 55 million (5,0% of revenue) up from DKK 7 million (0,6% of revenue) in 2015.

STORES

New shops have opened in New York and Australia and 12 shops have been closed in primarily Asia Pacific.

120 stores operated worldwide at the end of December 2016

Georg Jensen is represented across 13 countries.

NET REVENUE (DKK million)

DKK 1088 M

*Net Revenue 2015 and 2016 excludes closed stores and fx impact.

EBITDA* (DKK million)

DKK 55 M

*EBITDA excludes special items.

CEO LETTER

Georg Jensen Builds For The Future

A series of transitions and changes marked Georg Jensen in 2016, a year full of progress and plans for the future. Building a foundation for stronger, more sustainable growth was my goal when I joined as CEO 16 months ago, and what we accomplished in 2016 and what we are doing today at Georg Jensen leaves us better prepared and committed to our 113-year heritage.

At the heart of this are our designers, who have always been the key to who and what Georg Jensen is: A company based in design and craftsmanship and rooted in Scandinavian values of individuality, purity and, above all, of lasting quality.

In our Copenhagen headquarters, we introduced 3D modeling to our design and

production process, integrating the most modern technology into our century-old silversmith. And as we continued to celebrate fresh ideas and approaches, an increasing share of our sales in 2016 was made up of new product. Combining new technology with our many years of craftsmanship refreshes our creative roots and helps our company come alive every day.

Important changes to our product portfolio and deliberate choices to reduce the number of retail stores resulted in a 2016 with net revenue increasing only 0,2%. Today, the underlying business is sound and profitable, and we leave 2016 as a stronger and more focused company well prepared for the years to come.

A MORE DIGITAL COMPANY

Being an omni channel brand is crucial to the future we are building at Georg Jensen, and so developing a digital mindset is central to our company's new strategy. This includes strengthening online sales channels, which have allowed us to bring more strategic focus to our distribution mix and to ensure we have the right customer experience in place. The digital revenue stream is still a small part of our total revenue, but it is by far the fastest growing part.

GEORG JENSEN VALUES

Our roots, of course, are Scandinavian, but the Scandinavian identity is not inward-looking. We work regularly with international designers and partners who share our values, at the core of which is the courage to challenge limitations, cross borders, be individual and achieve, no matter one's nationality or gender. It is for that reason that our 2016 advertising campaign "You Can Never Be Too Much You" featured notable, high-achieving women: Susanne Bier, a Danish film director; Dominique Crenn, a French Michelin-starred chef; Cecilia Brækhus, a Norwegian WBO world champion boxer; Sarah Kendall, an Australian award-winning standup comedian; and Behnaz Shafiei, an Iranian motocross rider. This campaign - the first digital-focused platform for Georg Jensen - launched worldwide, broadening our brand recognition and taking our distinctive designs and Scandinavian essence to a global audience. It also presented our longstanding values, embodied in people who are bravely breaking new ground in their respective professions, as relevant and inspiring in today's world.

“You Can
Never Be
Too Much You”

MOVING FORWARD, TOGETHER

Most importantly, I want to thank every one of our 1,352 employees at Georg Jensen. Their combined talents and skills are what allow us to continue to be the daring, innovative Scandinavian design house we are today.

Strengthened management and leadership, a team of diverse experience and skills, and a bold and intelligent brand direction are all ours today. 2016 was a year of change and evolution, laying the foundation for our future.

A handwritten signature in black ink, appearing to read 'Eva-Lotta Sjöstedt', is written over a horizontal line.

Eva-Lotta Sjöstedt, CEO
Georg Jensen

PRODUCT CATEGORIES

A Singular Design Legacy

The history of Georg Jensen is one of groundbreaking Scandinavian design. Today, this strong tradition continues with our masterworks - new styles inspired by our archives. We return to our roots to envision our future.

Georg Jensen is recognized for collaborating with top international design talents who are inspired by our singular legacy and love of innovation. Following are collection highlights from 2016.

Silver

The Bernadotte Bar Collection, originally designed in 1938, was born into a world of cocktail parties and cosmopolitan sophistication. Not seen in regular production for more than 50 years, the four pieces offer a bold look that merges effortlessly with today's mixology culture.

Jewellery

In 2016, world-renowned architect Zaha Hadid created her first comprehensive jewellery collection for Georg Jensen. The sculptural forms and complex curves of each piece transform the organic inspiration of classic designs found in our archives.

Home

With its clean lines and geometric symmetry, The Manhattan Collection draws its Art Deco inspiration from the archive, yet offers a highly contemporary elegance.

Internationally-acclaimed architect Patricia Urquiola took inspiration from the ribbed lines of Bernadotte flatware when she designed her innovative Urkiola tableware collection.

Watches

Georg Jensen designer Vivianna Torun Bülow-Hübe was a pioneer in contemporary design, and her Vivianna Bangle watch with its clean face and striking, open wrist has been in production since it debuted in 1969.

Henning Koppel, another Georg Jensen legend, is known for his influential designs both in silver and timepieces, both of which exemplify Scandinavian minimalism and the Georg Jensen spirit of functional design.

PERFORMANCE

FINANCIAL REVIEW

NET REVENUE

Reported net revenue in 2016 amounted to DKK 1.091 million (DKK 1.144 million). Net revenue is materially impacted by the conscious decision to close selected retail stores in particular in APAC. Furthermore, net revenue is negatively affected by about DKK 7 million in exchange rate fluctuations, primarily concerning UK and Japan. Net revenue excluding closed stores and excluding impact of FX fluctuations amount to DKK 1.088 million (DKK 1.086 million) an increase of 0,2%.

APAC countries delivered net revenue excluding closed stores and FX fluctuations of DKK 488 million (45% of total net revenue) driven by the largest markets in Australia and Taiwan. ECOM in the APAC countries developed very positively with 15% growth while own retail stores held up well against the difficult macroeconomic trends and declined only 2.5% net of closed stores.

Europe & Other markets delivered net revenue excluding closed stores and FX Fluctuations of DKK 553 million (51% of total net revenue) growing at 2,5%. Growth in Europe & Other markets is driven by own retail growing 7,7% and ECOM growing a strong 15,8%.

North America again confirmed its potential for Georg Jensen with a net revenue growth of 9,3% excluding closed stores and FX fluctuations with strong double digit growth in both external retail and ECOM.

The own retail channel experienced a 0,7% net revenue growth excluding closed stores and FX fluctuations compared to 2015 driven by our largest region Europe. The retail channel make up for 59% of the sale in 2016 (58%). External retail came in 5,4% below sales in 2015 with strong growth in North America being offset by macroeconomic headwinds in APAC.

The ECOM channel continues its strong growth trajectory with double digit growth in all regions.

GROSS PROFIT

Gross profit excluding special items decreased by DKK 29 million to DKK 690 million (DKK 719 million) due to the impact of closed retail stores. The gross margin percentage excluding closed retail stores shows a healthy increase of 393 bps and was realized at 63,2% (62,8%).

SALES AND DISTRIBUTION EXPENSES

In 2016, sales and distribution expenses decreased by DKK 73.7 million. The saving over last year is behind tightly controlled spending. The sales and distributions expenses have been subject to a tight control, which has resulted in these expenses to decline compared to 2015.

ADMINISTRATION EXPENSES

Administration expenses amounted to DKK 193 million (DKK 170 million), which is an increase of DKK 23 million compared to 2015.

EBITDA

EBITDA excluding special items was realized at DKK 55 million in 2016 (DKK 7.1 million) significantly ahead of 2015.

OPERATING PROFIT (EBIT)

Operating profit (EBIT) excluding special items was realized at DKK 3 million (DKK -43 million).

NET FINANCIAL ITEMS

Net financial items amounted to a cost of DKK 16.6 million in 2016 (negative by DKK 9 million), which is an increase compared to 2015. Paid interest is significantly below 2015, however, this saving has been offset by negative currency impact in 2016.

PROFIT BEFORE TAXES

Profit before tax was negative by DKK 109.1 million (positive by DKK 34 million).

NET PROFIT

Net profit for the period was negative by DKK 106.6 million (positive by DKK 11 million).

ASSETS AND CASH AND CASH EQUIVALENTS

Total assets amounted to DKK 967.6 million as of 31 December 2016 (DKK 1.038 million), which is a decrease of DKK 70.4 million. The decrease is primarily related to inventory and a consequence of the significant increase experienced in 2015 on inventory including the impact of an extraordinary write-down of discontinued items in 2016. In 2016 the focus on bringing down the inventory significantly is therefore reflected in the books. Furthermore, we have experienced a decrease in fixed assets. 2016 has been characterized by minimal investments and focus on gaining most value of the investments performed in 2015.

Completed development projects amounted to DKK 11 million (DKK 9 million) and consist of new products within existing product cate-

OUTLOOK

gories. Development projects in progress amounted to DKK 12 million (DKK 24 million). The decrease is offset by an increase in software which by the end of 2016 amounts to DKK 32 million. Software mainly consist of the booked value of the ERP upgrade as the first step of this was finalized in 2016.

EQUITY

Equity decreased by DKK 113 million to DKK 458 million (DKK 571 million) driven by the negative result.

CASH FLOW AND NET INTEREST BEARING DEBT

Cash flow for 2016 was negative by DKK 2.0 million (positive by DKK 37 million). However, compared to 2015 the cash flow is generated from the operating activities, showing a positive result of DKK 53 million compared to a negative cash flow from operating activities in 2015 by DKK 141 million. The improvement is caused by a less paid interest and an improvement in working capital primarily driven by the inventory level. The decrease in inventory is among other caused by the changed focus in Jewellery from gold to silver products, tight control with all purchases and by a focus from management to bring down inventory with the necessary actions taken.

The positive cash flow from operating activities is a substantial improvement in 2016.

SPECIAL ITEMS

Special items comprises transactions not relating to our continuing operations e.g. cost for closure of stores, reorganization of the organization and / or write-downs of discontinued items. (See note number 2)

BRANCH

Georg Jensen A/S has a branch registered in Norway. The branch comprises the retail activity driven from our two stores as well as the e-commerce activities for the Norwegian market.

OUTLOOK FOR 2016 REALIZED

Georg Jensen expected that the Group's regions would continue the positive development and continue growth in 2016. For 2016 Georg Jensen revenue was in line with prior year after removing the impact of store closures.

Net profit, when excluding the impact of the 2015 fixed asset sale of lease premises, was expected to increase as well. This has been realized as planned.

Investments for the year came in as expected significantly below 2015.

OUTLOOK FOR 2017

Georg Jensen netsales from continuing operations is expected to increase.

Net profit for 2017 is expected to increase compared to 2016. EBIT-DA excluding the impact of special items is expected to increase significantly with growth rate exceeding the net sales.

Investments for 2017 will be in line with 2016 focussing on rejuvenating our retail store fleet and developing our IT infrastructure.

RISK MANAGEMENT

The Board of Directors regularly assesses the Company's overall risks and the individual risk factors associated with its activities. The Board of Directors adopts guidelines for key risk areas, monitors progress and prepares action plans for reducing and managing individual risk factors, including financial and business risks, insurance and environmental conditions and compliance with competition law.

BUSINESS RISK

Commercial risk: As an international brand, Georg Jensen is subject to the international economic development, in particular the consumption of luxury goods. The relatively high gross margins for the retail sector, as well as the high fixed costs for lease charges and salaries, mean that the Company's results are sensitive to sales fluctuations. We seek to eliminate the dependency on cyclical economic trends via wider geographical diversification of sales, as well as the use of different sales channels spanning from retail, external retail and to e-commerce and B2B. On the product side, cohesive concepts are being developed, which maintain the brand's position as a leading Scandinavian design company.

Logistics risk: If the right products are not available in the stores at the right time, the amount of returned and surplus products rises, which increases the risk of obsolete products. Late delivery or non-delivery thus poses a risk. Sales, Operations and Planning (S&OP) processes need to be established in order to ensure alignment between the demand and supply, including delivery time, in order to adjust and manage stock levels.

Production facilities: Georg Jensen depends on three production facilities for Silver/Hollowware (Copenhagen, Denmark), Jewellery (Chiang Mai, Thailand) and Seasonal (Hjoerring, Denmark) whereas the production of Home Decór products is outsourced to 3rd party suppliers primarily in China. Watches is also primarily outsourced to 3rd party suppliers. Contingency plans and training is used and communicated in execution for different scenarios which can trigger interruption of operations, and we work with miscellaneous preventative actions to prevent interruption. Existing inventory levels are a preventive factor for a short period of time; insurance against interruptions in operations partly mitigates negative financial impacts.

IT breakdown: Risk control measures such as firewalls, access control, contingency plans, etc. are assessed on a regular basis in order to identify and minimize these risks.

Employees: Georg Jensen strives to offer unique career opportunities and talent development. The HR department is responsible for the development and updating of guidelines and training tools to support managers at all levels. Part of the performance culture ensures that all employees have clear goals and act as accountable, trustworthy ambassadors for our brand and company.

Brand and image: The brand and its reputation are managed through company values and integrated into corporate and social responsibility standards for Georg Jensen. Risks related to brand and reputation are addressed by way of prevention in a communication strategy prepared annually and proactively by way of consistent and transparent public relations and communication efforts, both externally and internally and through relevant channels.

Intellectual property rights: Georg Jensen aims to use and safeguard our intangible assets by securing key trademarks in key markets, selectively defending our trademarks and designs when necessary and appropriate.

Environment: Georg Jensen controls the value chain in our own factories where we continuously work on reducing the use of hazardous materials, noise and pollution and other elements that can cause a risk to employees or the environment. We also continuously work to improve our internal quality system in order to reduce deficiencies.

FINANCIAL RISK

The Parent Company manages the Group's financial risks centrally and coordinates the Group's liquidity management, including capital provision and placement of surplus liquidity. Risk management is based on a policy laid down by the Board of Directors with a view to limiting financial risks by applying derived financial instruments, mainly futures and options.

Foreign exchange fluctuations: As a result of its operating structure, Georg Jensen is heavily exposed to foreign exchange fluctuations. Similarly, the Group is increasingly exposed to foreign exchange fluctuations in connection with purchase and sale in foreign currencies and is relatively heavily exposed to changes in commodity prices of gold, silver, steel, brass, precious stones etc.

The exposure is attempted minimized by reliable and precise forecasts of currency flows and positioning for hedging purposes. Hedging of expected currency exposure for the upcoming 12 months period is based on an approved policy.

Commodity prices: Failure to purchase adequate commodities, including raw materials, especially gold and silver, at competitive prices poses a risk for the Company. Commodity price volatility introduces uncertainty to the price of the Company's input costs and potentially lowers profitability. This is mitigated by a reliable and precise forecast of the flow of commodities with a view to creating a basis for hedging and securing expected purchases of commodities for the upcoming 12-month period based on an approved policy.

EXTERNAL RISKS

Macroeconomic factors: A substantial part of the Company's sourcing and sales takes place in markets which from time to time experience political and economic turmoil. This can affect Georg Jensen's business and thus poses a risk. Reliable and accurate sales forecasting allows flexible planning and reaction time to reduce the impact of macroeconomic factors. We furthermore seek to eliminate the dependency on cyclical economic trends via wider geographical diversification of sales, as well as the use of other sales channels, such as online, B2B and franchise agreements.

CSR

Georg Jensen acknowledges both the impact and the responsibility we have for the societies we operate in. We work proactively to ensure environmentally, socially and economically responsible business processes.

Since 2009, we have been a UN Global Compact signatory. The 10 Global Compact Principles currently guide our work and address the most important sustainability issues throughout our value chain, from design through production to our customers. Here we address our key areas: responsible business and supply chain management, the environment, anticorruption, and employee development and diversity. All areas are integrated into Georg Jensen's business procedure and strategy.

The UN Global Compact requires participants to report on their progress to embed the 10 Principles into their strategies and operations. Since 2009, Georg Jensen has submitted an annual COP (Communication on Progress) report. The most recent progress and results are available in the Georg Jensen 2016 COP report* , cf. Section 99A (7) of the Danish Financial Statement Act.

*<https://www.unglobalcompact.org/participation/report/cop/create-and-submit/active/327381>

FINANCIAL STATEMENTS

MANAGEMENT'S STATEMENT

The Executive and Supervisory Boards have today considered and adopted the annual report of Georg Jensen A/S for the financial year 1 January - 31 December 2016.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position as of 31 December 2016 of the Company and the Group and of the results of the Parent Company's and Group's cash flows for 2016.

We recommend that the Annual Report be adopted at the Annual General Meeting.

INDEPENDENT AUDITORS' REPORTS

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF GEORG JENSEN A/S

OPINION

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2016, and of the results of the Group's and the Parent Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2016 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Georg Jensen A/S for the financial year 1 January - 31 December 2016, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("financial statements").

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

STATEMENT ON MANAGEMENT'S REVIEW

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement in Management's Review.

MANAGEMENT'S RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of Consolidated Financial Statements and Parent Company Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain au-

dit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES

NOTES

1 Accounting policies applied

The Annual Report is presented in accordance with the Danish Financial Statements Act. The Annual Report is presented in accordance with the provisions for accounting class C (large) companies.

The accounting policies are unchanged from last year.

The accounting policies are applied consistently throughout the financial year and for the comparative figures.

The accounting policies applied are stated in the following and in the following notes:

Note 4 Other operating items	Note 11 Inventories
Note 5 Result of investments in subsidiaries	Note 14 Equity
Note 6 Financial items, net	Note 15 Long term debt
Note 7 Tax on profit for the year and deferred tax	Note 16 Contingent assets
Note 8 Intangible assets	Note 17 Contingent liabilities and other financial obligations
Note 9 Tangible assets	Note 20 Financial instruments and risks
Note 10 Investments in subsidiaries	Note 22 Cash flow statement

Recognition and measurement

Revenues are recognized in the income statement when invoicing and delivery has taken place. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortized costs are recognized. Moreover, all expenses incurred to achieve the earnings for the year are recognized in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Consolidated accounts

The consolidated accounts comprise the accounts of the Parent Company Georg Jensen A/S and subsidiaries, defined as companies in which the Parent Company directly or indirectly holds a controlling interest.

The consolidated accounts are prepared on the basis of accounts for the Parent Company and subsidiaries by consolidation of accounting items of a uniform nature, in accordance with the Group's accounting policy. Eliminations are made for internal revenue, interest, dividend, profits and intercompany balances, just as capital interests in subsidiaries are set off by the equivalent share of the companies' capital and reserves stated in accordance with the Group's accounting policy. Non-controlling interests' share of the results and capital and reserves of subsidiaries is stated as a separate item.

NOTES

1 Accounting policies applied, continued

Foreign currency

Translation of the income statement in foreign subsidiaries' accounts to Danish kroner takes place at the average exchange rates for the financial year, while the balance sheet is translated at the exchange rates on the date of the balance sheet. Currency differences on the translation of foreign subsidiaries' capital and reserves at the exchange rate on the date of the balance sheet are carried to capital and reserves.

Receivables and debt in foreign currency are translated to Danish kroner at the exchange rates on the date of the balance sheet. Realised and unrealised currency gains and losses are carried to the income statement.

Revenue

Revenue after deduction of discounts is recognized in the income statement, if delivery and invoicing have taken place before the end of the financial year.

Cost of goods sold

Cost of goods sold comprises the cost price (direct costs) of goods sold, as well as expenses relating to maintenance, depreciation and salaries, etc. that are paid in order to achieve the revenue for the year.

Sales and distribution expenses

Sales and distribution expenses comprise the expenses relating to sales staff, advertising and exhibition costs, goods handling, freight and depreciation, etc.

Administrative expenses

Administrative expenses comprise the expenses relating to administrative staff, management, office premises, office expenses, information technology and depreciation, etc.

Provisions

Provisions are recognized when - in consequence of an event occurred before or on the balance sheet date - the Company has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

Other provisions include provision to re-establishing leasehold improvements in accordance with the lease contracts and provision for pensions to employees.

NOTES

1 Accounting policies applied, continued

Key figures

The key figures presented in highlights and key figures are calculated as follow:

Invested capital

Assets less cash and cash equivalents and non-interest-bearing debt

Net interest-bearing debt

Interest-bearing debt less cash and cash equivalents

Gross margin (%)

Gross profit as a ratio of net revenue

EBIT margin (%)

Operating profit (EBIT) as a ratio of net revenue

Solvency ratio (%)

Capital and reserves at year-end as a ratio of total assets.

Return on invested capital, including goodwill

Operating profit (EBIT) as a ratio of average invested capital, including goodwill

Net revenue/Invested capital, including goodwill

Net revenue divided by average invested capital, including goodwill

Return on equity (%)

Net profit/(loss) as a percentage of average equity

NOTES

2 Special Items

The result is affected by the following special items:

	The Group	
	2016	2015
Cost for restructure of organization	47,1	11,8
Inventory write down of discontinued items	41,0	10,6
Impairment of fixed assets	2,6	9,8
Other cost	4,9	7,1
Profit from sale of non-current assets	0	(125,8)
	95,6	(86,5)

Special items is included in the gross profit with DKK 41 million (DKK 10,6 million)

3 Segment information

	The Group	
	2016	2015
Net revenue by markets:		
APAC	495,2	517,8
Europe	541,5	559,2
Other	54,7	67,1
	1.091,4	1.144,1

For the Parent Company DKK 412,7 million (DKK 366,1 million) comes from sale of goods to non-group related parties.

4 Other operating items

Accounting policies applied

Other operating income and other operating expenses comprise items of a secondary nature to the core activities of the enterprise, including gains and losses on the sale of intangible assets and property, plant and equipment.

Parent Company			The Group	
2016	2015		2016	2015
-	0,4	Profit (loss) on sale of non-current assets	(1,3)	125,8
0,3	46,8	Other income	0,6	0,2
(1,8)	-	Other expenses	(1,7)	(0,3)
(1,5)	47,2		(2,4)	125,7

NOTES

6 Financial items, net

Accounting policies applied

Net financial items comprise interest income and expenses, capital and exchange gains and losses relating to liabilities and transactions in foreign currencies and amortization of financial assets and liabilities.

Parent Company			The Group	
2016	2015		2016	2015
20,2	30,4	Interest income	22,4	19,4
(24,2)	(25,7)	Interest expenses	(39,0)	(28,8)
<u>(4,0)</u>	<u>4,7</u>		<u>(16,6)</u>	<u>(9,4)</u>

For the Parent Company, interest income to affiliated companies is stated at DKK 12,8 million (DKK 12,6 million) while interest expense to affiliated companies is stated at DKK 0,8 million (DKK 0,1 million)

NOTES

DKK million

7 Tax on profit for the year and deferred tax

Accounting policies applied

The expected tax on the taxable income for the year is carried as an expense in the income statement, with addition of the change in deferred tax for the year.

The Company is taxed jointly with the Parent Company, and with Danish Group Companies. The corporate tax of the jointly-taxed companies is distributed among the companies according to their taxable incomes (full distribution method).

The jointly-taxed companies are subject to the on-account taxation system.

Deferred tax is allocated for all timing differences between accounting and taxation values, including differences in the book value of tangible assets, inventories of finished goods and the tax value of taxable deficits carried forward. Deferred tax assets are measured in the balance sheet at their expected realizable value.

Deferred tax is measured on the basis of the tax rules and tax rates in the respective countries that, under the legislation as of the date of the balance sheet, would apply when the deferred tax is expected to be activated as current tax.

Parent Company			The Group	
2016	2015		2016	2015
0,6	1,2	Current tax for the year	6,3	16,8
(10,0)	-	Deferred tax for the year	(8,8)	6,0
<u>(9,4)</u>	<u>1,2</u>		<u>(2,5)</u>	<u>22,8</u>

NOTES

8 Intangible assets

Accounting policies applied

Intangible assets are measured at cost price, comprising directly and indirectly related expenses, less accumulated impairment losses and amortization.

Amortization takes place on a straight line basis as shown below:

Software 3-7 years

Goodwill 10 years

Leasing rights Leasing period

Trademark rights Max. 5 years

Finished
development projects Max. 5 years

Software and IT development are amortized over the useful life of 3-7 years. Cost includes the acquisition price as well as costs arising directly in connection with the acquisition and until the point of time where the asset is ready for use. Amortization is provided on a straight-line basis over the expected useful life.

Goodwill acquired is measured at cost less accumulated amortisation. The depreciation period reflects the expected economic lifecycle of the activity relating to the goodwill.

Expenses relating to the development of products, where the intention is to manufacture and market the product, are recognized in the balance sheet when the applicable criteria are fulfilled. In other cases the expenses are carried to the income statement when they are defrayed.

Development expenses are stated in the balance sheet at cost price, comprising the direct and indirect costs attributable to the development activities, less accumulated depreciation and impairment.

Development projects concern either cost for developing of new products within the group's current selections as well as cost for developing of software. Cost concerning software relate to either the ERP-upgrade as well as cost for developing a new online sales platform.

Development of new products is only initiated when a business plan documenting the expect cost and the expected future cashflow is prepared and approved. All products developed is up for sale on all markets.

Status on development projects is assessed on a quarterly basis.

9 Tangible assets

Accounting policies applied

Tangible assets are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use. In the case of assets of own construction, cost comprises direct and indirect expenses for labour, materials, components and sub-suppliers.

Interest expenses on loans raised directly for financing the construction of tangible assets are recognised in cost over the period of construction. All indirectly attributable borrowing expenses are recognised in the income statement.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Buildings	25-30 years
Plant and machinery	5-15 years
Other fixtures and fittings, tools and equipment	3-5 years
Leasehold improvements	5-10 years

NOTES

10 Investments in subsidiaries

Accounting policies applied

Investments in subsidiaries are recognized and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealized intercompany profits or losses and with addition of any remaining value of positive differences (goodwill) and deduction of any remaining value of negative differences (negative goodwill).

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in subsidiaries.

Subsidiaries with a negative net asset value are recognized at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is set up against receivables from group enterprises or recognized in provisions.

Other investment securities and capital interests are measured at fair market value on the date of the balance sheet.

11 Inventories

Accounting policies applied

Raw materials and components are measured at acquisition price, or net realization value if lower.

Goods in production and finished goods are measured at cost price (compiled by the average method) with addition of indirect production costs, or at net realization value if lower.

Indirect production costs comprise the cost of indirect materials and labor as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management.

Parent Company			The Group	
2016	2015		2016	2015
20,3	19,7	Raw materials and components	27,0	30,3
27,0	14,2	Work in progress	32,6	24,2
89,3	145,1	Finished goods and goods for resale	299,6	388,7
136,6	179,0	Total inventory	359,2	443,2

12 Deferred Tax Assets

Parent Company			The Group	
2016	2015		2016	2015
52,4	53,0	Deferred tax at 1 January	68,9	71,9
9,8	(0,6)	Addition/disposal for the year	9,2	(3,0)
62,2	52,4	Deferred tax at 31 December	78,1	68,9

Deferred tax asset for the Group make up for DKK 78.1 million at 31 December 2016 (68.9 in 2015) The deferred tax asset can be split in DKK 9.2 relating to tax losses carry forward and DKK 68.9 relating to temporary differences.

Deferred tax asset for the Parent Company make up for DKK 62.2 million at 31 December 2016 (52.4 in 2015) The deferred tax asset can be split in DKK 7.6 relating to tax losses carry forward and DKK 54.6 relating to temporary differences

Recognition of the deferred tax asset and the expectations to the utilization is based on the set targets in the Group's new strategy, starting from 2017 and the approved budget for 2017. For 2017 is expected a profit for the group and this profit is expected to increase the coming years. The strategy contains 8 strategic shift for the Group, with some directly measurable on the profit and with other to strengthen the organization and in the group.

Based on these strategic shifts and the fact that every action point taken is in accordance with the set strategy that make it possible for the Group to reach the set targets in the strategy, and by that also generate sufficient profit to utilize the recognized deferred tax asset.

NOTES

DKK million

At year end the Group has non-recognized tax losses carry forward of an estimated value of DKK 150 - 160 million. The non-recognized tax losses carry forward represent what is not expected to be utilized within the coming years.

At year end the Parent Company has non-recognized tax losses carry forward of an estimated value of approx. DKK 25 million. The tax losses carry forward represent what is not expected to be utilized within the coming 5 years.

16 Long-term debt

Accounting policies applied

Loans are recognized at the date of borrowing at the net proceeds received after deduction of transaction costs incurred. In subsequent periods, financial liabilities are measured at the amortized cost, corresponding to the capitalized value using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognized in the income statement over the term of the loan as a financial expense using the effective interest method.

Other liabilities are measured at amortised cost, which in all material aspects corresponds to the nominal value.

Payments due within 1 year are recognized in short-term debt. Other debt is recognized in long-term debt. The debt falls due as follows:

Parent Company			The Group	
2016	2015		2016	2015
153,0	170,0	Between 1 and 5 years	161,8	181,7
153,0	170,0	Long-term debt	161,8	181,7
17,0	-	Within 1 year	23,6	3,3
32,6	21,1	Other short-term debt to credit institutions	34,6	21,5
49,6	21,1	Short-term part	58,2	24,8
202,6	191,1	Total debt	220,0	206,5

17 Contingent liabilities and other financial obligations

Accounting policies applied

Contingent liabilities comprise potential liabilities which have not yet been confirmed as to whether these will cause an outflow of the Group's resources or actual liabilities which are not possible to measure with sufficient reliability.

Lease costs are recognized using the straight-line method over the term of the lease starting from the date the lease enters into force.

The Parent Company is liable as a surety guarantor for loans of DKK 13,6 million raised by Georg Jensen (Thailand) Ltd. with IFU.

For the credit facilities with a credit institution a mortgage charge on the Company's assets of DKK 200 million and a mortgage registered to the owner of DKK 10 million on a building with an accounting book value of DKK 5,4 million have been recorded in the Land Register. For the same credit facilities, shares in a subsidiary with a book value of DKK 63,3 million have been pledged as collateral.

As at 31 December 2016 the Group is involved in pending litigation, however it is management's assessment that it will not have a material effect on the Group's financial position.

Total lease payment obligations of the Parent Company amount to DKK 67,3 million, hereof property in Headquarter and shop lease payment obligation amounting to DKK 65,8 million (DKK 79,7 million) which run to 1 January 2022, and other leases payment obligations amounting to DKK 1,5 million (DKK 1,8 million) which run to 8 September 2019.

For the Group, total lease payment obligations amount to DKK 351,5 million, hereof property and shop lease payment obligation amounting to DKK 346,4 million (DKK 370,7 million) with varying terms up to 25 March 2025, and other leases payment obligations amounting to DKK 5,1 million (DKK 3,4 million) which run to 30 November 2020.

The aging of the lease payment obligations is shown below:

Parent Company			The Group	
2016	2015		2016	2015
56,4	56,6	Between 1 and 5 years	221,6	208,5
0	13,9	Over 5 years	15,0	48,3
56,4	70,5	Long-term lease obligations	236,6	256,8
10,9	11,0	Within 1 year	114,9	117,3
10,9	11,0	Short-term part	114,9	117,3
67,3	81,5	Total lease obligation	351,5	374,1

The Parent Company has provided guarantees for lease payment obligations in subsidiaries for approximately DKK 42 million (DKK 52 million) in total. The Company is jointly taxed with Danish group companies. The Company is severally liable for corporate and withholding taxes for the jointly taxed Companies.

Share based payment

The Company's Executive Board and Senior Executives have entered into agreements concerning the purchase of shares in a parent company of Georg Jensen A/S. The arrangement is based on the executives achieving a part of the value increase of the shares.

In Management's opinion, the agreements do not represent any significant financial value.

NOTES

20 Financial instruments and risks

Accounting policies applied

Initial recognition of derivative financial instruments is made in the balance sheet at cost and they are subsequently measured at fair value. Positive and negative changes in fair values of derivatives are included as receivables or liabilities.

Changes in the fair value of derivatives which are classified as and meet the conditions for the hedging of future transactions are taken directly to equity.

On realization of the hedged position, income and costs relating to such hedging transactions are transferred from equity and recognized in the same accounting item as the hedged position.

In respect of derivatives which do not meet the conditions for treatment as hedging instruments regarding future transactions, the changes in the fair value are recognized in the income statement on an ongoing basis.

Financial instruments and risks

The financial management of the Group aims solely to control the financial risks relating to its operations, since it is the Group's policy not to engage in financial risks.

Currency and commodity price risks are hedged for up to 12 months with a decreasing hedging degree over the period pursuant to the Hedging Policy approved by the Board of Directors.

To hedge the financial risks Georg Jensen uses a portfolio of financial instruments as FX-forwards, silver and gold futures, currency swaps as well as options.

The effective part of the fair values of the raw material price futures, currency and interest rate swaps used for and complying with the conditions for hedge accounting for future transactions is recognized directly in equity until the hedged transactions are realized and consequently recognized in the income statement.

Financial liabilities and receivables

The majority of financial liabilities of the Group fall due within 12 months with the exception of long term loans.

The financial receivables of the Group all fall due within 12 months. It is the Group's policy that all major customers and other partners undergo regular credit rating. A credit line is set on the basis of the credit worthiness of the individual customers and counterparties. The Group does not have any material risks relating to individual private customers or partners.

Historically seen the Group has had relatively small losses as a consequence of non-payment by customers or counterparties. At year-end write-downs on bad debt was DKK 8,4 million (DKK 6,0 million).

Interest rate risk

The interest rate risk of Georg Jensen is primarily related to floating rate debt to credit institutions.

At year end 2016 Georg Jensen has no interest rate swaps as these expired in 2016. At year end the market value of interest rate swaps was DKK 0,0 million (DKK (4,4) million), none of which was recognized directly in equity.

NOTES

20 Financial instruments and risks, continued

Foreign currency risk

The foreign currency risks of Georg Jensen are mainly related to the purchase of raw materials and revenues in foreign currencies.

The table below shows the impact of the year on P/L and equity from exchange rate increases of 10% in Georg Jensen's primary foreign currencies after the impact of hedge accounting based on monetary assets and liabilities at year end (in DKK millions).

	2016	2016	2015	2015
	P/L before tax	Equity	P/L before tax	Equity
AUD	(0,6)	(2,4)	(0,5)	(1,7)
CNY	1,8	-	(0,2)	-
EUR	0,1	-	0,1	-
GBP	(1,9)	(1,4)	(1,7)	(0,8)
HKD	0,1	(0,4)	0,1	(1,0)
JPY	(0,1)	(1,1)	3,7	(0,7)
NOK	(0,2)	(1,3)	0,3	(0,5)
SEK	-	(1,8)	-	(1,2)
THB	(0,8)	2,1	(0,8)	2,7
TWD	(1,6)	(2,4)	(1,1)	(2,2)
USD	6,2	5,7	7,9	4,7

Georg Jensen has equity investments in foreign affiliated companies, whose net assets are affected by exchange rate fluctuations in connection with translation to DKK in the consolidated accounts. This translation risk is not regarded as a foreign currency risk and is therefore not included in the sensitivity calculations.

At year end the market value of FX derivatives was DKK 1,4 million (DKK 1,5 million), of which DKK 1,4 million (DKK 1,2 million) was recognized directly in equity. All currency hedging expires within 1 year.

Raw material price risks

Georg Jensen is exposed to fluctuations in commodity prices through its production. The main raw materials are gold and silver.

The sensitivity on profit for the year and equity from raw material price movements of 10% of gold and silver after impact of hedge accounting amounts to DKK 3,7 million (3,0 million) at year end 2016.

As per 31 December 2016 the market value of gold and silver futures was negative by DKK 2,6 million (DKK 2,9 million) which was recognized directly in equity. All commodity price hedging expires within 1 year.

NOTES

21 Related parties and ownership
